We are strictly growers and do not buy any stock.

All our roses are two-year field-grown, budded on Japanese multiflora, conceded to be the best stock for the East. They are graded to a high standard and, having been sprayed constantly, are free from blackspot.

Grading the H. T. and H. P. Roses as we do, we naturally have a limited number of an intermediate or 1½ grade which we offer at a 20 per cent discount, and a No. 2 grade which we offer at 50 per cent. These are all good, healthy plants and are splendid for potting up for spring sales.

## Hardy Phlox

Strong one-year field-grown roots

Our soil is favorable to the development of an exceptionally strong root system, and we feel you will be more than satisfied with the stock offered below.
